

CERTIFIED PRODUCT

DESTRUCTION

**Berger Recycling picks up
your material on-site**

**Hydraulic baler uses 420,000 pounds of force
to crush your material into uniform bales**

**1,000 pound bales are stored in
a secure warehouse**

**Bales are ejected from press and stored
in a secure warehouse**

Bales are processed to reclaim raw materials

**ALL PHASES OF THIS PROCESS ARE CAPTURED
BY CLOSED-CIRCUIT TELEVISION, WHICH CAN
BE VIEWED OR ARCHIVED UPON REQUEST.**

Excess inventory, obsolete products, defective products, discontinued packaging; these are just a few of the reasons that businesses wish to remove products from inventory.

You could send this material to a landfill. However this is costly and there is no guarantee of product destruction.

Berger Recycling offers a solution; our destruction program is tailored to meet the unique needs of your business. Our environmentally conscience program can even generate revenue. Most important it removes your product from all potential customers.

Established in 1912, Berger Recycling Inc. is family-run through four generations.

We have been members of ISRI (Institute of Scrap Recycling Industry) since 1987 and members of EPMSA (Easter Paper Mill Supplier Association) since 1975. We are in the business of creating long-term business relationships where the customer comes first. Through our reputation for honesty, civic interest, and excellent service, Berger has emerged as an industry leader.

We stand by our products and services 100%
